

Smart Visual Ear-Clean Rod Bebird Note 5 pro (white)

Smart Visual Ear-Clean Rod Bebird Note 5 pro (blue)

Ref: 6972403826454

Bebird Note 5 Pro Ear Cleaning Camera Otoscope (white).

Bebird will transform your approach to ear hygiene. The Bebird Note 5 Pro otoscope combines a high-resolution 10 MP camera with a 3.2 mm endoscopic head to provide a crystal clear image inside the ear. The gyroscope with adjustable stabilization guarantees stable and accurate operations without tremors. The integrated Wi-Fi system allows easy access to images via an app, enhancing convenience. The rechargeable battery provides one hour of uninterrupted operation, and advanced features such as intelligent temperature control and LED backlighting enhance safety and comfort.

High image quality for precise diagnosis

The Bebird Note 5 Pro otoscope guarantees exceptional precision - the 10 MP camera, equipped with a CMOS sensor, transmits images from inside the ear to the smartphone screen with amazing detail. Transmission speed of 20 fps makes every movement smooth. The nano lens is resistant to water, dust and scratches, resulting in sharp images even in harsh conditions.

Convenient image access

The integrated Wi-Fi microprocessor enables a stable and fast wireless connection, so you can analyze the camera's view in real time on the dedicated Bebird app, available in the App Store and Google Play stores. A high-end gyroscope is responsible for stabilizing the image, allowing you to maneuver precisely without worrying about hand tremors. This makes ear cleaning safer and more convenient.

Proven effectiveness

Bebird sets a new standard in ear hygiene. With its advanced visualization system, mechanical design and 360° adjustable innovative tweezers, the device provides convenient access to all parts of the ear and exceptional effectiveness.

Long working time

The 230 mAh rechargeable battery guarantees up to an hour of use on a single charge. One hour is enough to charge the battery to full capacity. As a result, the Bebird Note 5 Pro otoscope is almost always ready to work, and you can enjoy comprehensive ear hygiene with innovative technologies.

Additional perks

Thanks to intelligent temperature control, the Bebird Note 5 Pro otoscope doesn't overheat, and the eye-safe LED backlighting makes it easy to clean and inspect your ears. The device is also distinguished by its lightweight and compact design, making it possible to perform daily health checks and remove ear, nose and throat wax both at home and on the go. In addition, it looks exceptionally elegant thanks to its silky texture.

Includes:

Otoscope with camera
Base Ear spatula x6
Ear dome x6
Ear canal protective plug
Double-sided cleaning brush
Alcohol soaked swab x5
Softening swab x5
Charging cable
User manual

Manufacturer: Bebird
Model: Note5 Pro
Pixels: 10 MP
Lens diameter: 3.2 mm
Optimum focal length: 12 ~ 15 mm
Gyroscope: Yes, with adjustable stabilization
Image transmission speed: 20 fps
Image sensor: CMOS
Frequency of operation: 2.4GHz
Network standard: IEEE 802.11b/g/n
Battery capacity: 230 mAh
Operating time: approximately 60 minutes
Charging time: okolo 60 minut
Operating temperature: 10°C to 45°C
Input parameters: DC5V 0.5A
Weight of the rod: 92 g
Color: white

Price:

Before: € 65.0055

Now: € 64.00
