Otoscope with Camera for Ear Cleaning Xlife Q3 (Yellow)

Meet the Xlife Q3 otoscope - an innovative tool for ear care and cleaning that combines reliability, safety, and exceptional quality. Thanks to its thoughtful design, ear cleaning for children becomes easier and more precise than ever before. See what Xlife can offer you!

Safety and Comfort

With its high resolution, the Xlife Q3 otoscope not only guarantees exceptionally sharp images but also ensures safe and comfortable use. Moreover, the cold light illuminates the ear canal without causing glare. The image generated by the device is stable and clear, allowing you to easily spot every detail. This makes ear cleaning much simpler and more precise. Its operation is controlled by a single button.

Comfort and Precision

The gentle ear sticks included with the otoscope are specially designed to not scratch or irritate the inner ear skin. This means that ear cleaning is now more comfortable than ever before. Furthermore, the device is equipped with a 30 mAh battery, ensuring operation for up to 45 minutes. Don't worry when its energy runs out - you can recharge it using the USB port and the cable included in the set. In addition, the otoscope is suitable for cleaning children's ears, as a cartoon lion is placed on the handle. This pleasant addition makes ear cleaning fun, even for the youngest children.

Included in the Set

Q3 otoscope
metal and silicone ear sticks x3
soft ear sticks x3
storage box
charging cable
