

Powerbank / Jump starter Lokithor J402 - 3000A 12V 88,8Wh

Ref: 6928493308301

Powerbank / Jump starter Lokithor J402 - 3000A 12V 88,8Wh

Powerbank / Jump starter Lokithor J402 - 3000 A 12 V 88.8 Wh

The Lokithor starter offers 3000 A of starting current and allows you to quickly start the engine of various vehicles, including a car, motorbike, boat, camper etc. In addition, it allows you to renew the energy of devices such as a smartphone or tablet. It also offers an LED torch function. In turn, a number of safety features guarantee the safe use of the jump starter.

Efficient operation

The Lokithor J402 starter offers a starting current of 3,000 A and can start the vehicle around 60 times on a full charge. It is suitable for petrol engines under 8.5 litres and diesel engines under 6.5 litres. It will work well for cars and vans, motorbikes, boats, campers, quads, SUVs, tractors, lawnmowers, etc.

Fast charging

The Lokithor J402 charges in approximately 1.6 h and can start your car after just 5 min of charging. In addition, it acts as a powerbank - with an output power of 100 watts and a USB-C port, it will quickly renew the energy of devices such as smartphones, tablets, laptops, etc.

Safe to use

The starter detects the voltage of the car battery in real time and alerts you if it is damaged. It has the latest battery management system and uses protection against short circuit, overcurrent, reverse connection, overheating, etc. With its ability to withstand extreme temperatures (-20°C to 60°C), it allows you to start your vehicle's engine in a variety of conditions.
