

Powerbank / Jump starter Lokithor J401X - 2500A 12V 74Wh

Ref: 6928493354193

Powerbank / Jump starter Lokithor J401X - 2500A 12V 74Wh

Powerbank / Jump starter Lokithor J401X - 2500A 12V 74Wh

The Lokithor J401X is a multifunctional device that, using 2500A, can quickly jump-start a petrol engine up to 8.5 litres and a diesel 6.5 litres. It is compatible with 12-volt vehicles and will be perfect for travelling. What's more, it acts as a torch and powerbank.

Reliable and practical

Be prepared for a variety of circumstances on the move. The starter allows you to quickly start your vehicle, including cars and vans, motorbikes, boats, campervans, quads, SUVs, tractors and lawnmowers. What's more, it supports 100 W charging, so you can quickly renew the energy of various devices. The Jump starter also functions as a torch - there are 3 modes at your disposal: SOS, strobe and constant light.
