Wireless Bluetooth Speaker Nillkin X-MAN (Red)

Designed with outdoor enthusiasts and military style enthusiasts in mind, the Nillkin X-MAN wireless speaker combines durability and functionality. This speaker not only impresses with its minimalist design but also offers convenience with its sturdy carabiner, high-quality sound, and long battery life. It is equipped with advanced Bluetooth features, is water-resistant, and easy to transport, making it the perfect companion for anyone who values mobility and sound quality.

Portability and Durable Construction

The Nillkin X-MAN stands out with its military-style silicone casing, ensuring durability and resistance to daily impacts. The large, sturdy carabiner allows you to attach the speaker to your backpack, belt, or tent, which is especially useful for hiking, camping, or outdoor workouts. The rugged construction makes it an ideal choice for individuals leading an active lifestyle.

High-Quality Sound

With 45mm drivers and a 50 x 90mm vibrating diaphragm, the Nillkin X-MAN delivers clear and powerful sound. A frequency range of 80Hz-20KHz and a signal-to-noise ratio above 75dB ensure that every note and tone is reproduced with precision, which is crucial for music enthusiasts who value high sound quality.

Advanced Bluetooth Features

Supporting Bluetooth version 4.0 and A2DP, AVRCP, HFP, and HSP modes, the Nillkin X-MAN speaker allows seamless pairing with various devices. A transmission range of approximately 10 meters allows for free movement without compromising connection quality. Additionally, user-friendly buttons enable quick music and call management, which is particularly useful when on the go.

Long Battery Life and Functionality

With a built-in 5200mAh battery, the Nillkin X-MAN speaker provides over 10 hours of continuous playback, which is essential for users who don't want to be limited by frequent charging. LED indicators showing the battery level and Bluetooth connection status are intuitive to use, and the ability to charge via USB and the USB 5V/1A output make it even more practical.

Resistant to Outdoor Conditions

Its IPX4 waterproof certification makes the speaker resistant to splashes, which is particularly important for outdoor use. The ability to listen to music in various weather conditions without worrying about damaging the device adds extra value to the Nillkin X-MAN speaker for active individuals who spend a lot of time outdoors.

Package Contents:

- Speaker x 1
- USB Cable x 1
- AUX Cable x 1
