Coshare SuperFlow1 Pro Hair Dryer (silver)

The Coshare HD10E Pro hair dryer is an indispensable tool for everyday hair care. The 110,000 RPM motor speed combined with 1600 watts of power will allow you to dry your hair in no time. It offers 3 blowing speed settings and 4 temperature settings. Thanks to the use of ionization technology, your hair will be smooth, shiny and pleasant to the touch. It also impresses with its extremely low volume, lightweight and compact design.

Instant drying

Now it will take you much less time to get ready to go out! A brushless motor is responsible for efficient drying, which operates at up to 110,000 revolutions per minute, providing a strong and even airflow of 70 m/s. As a result, it will take you less than 3 minutes to dry long hair, while you can dry short hair in just 2 minutes. See for yourself how a Coshare dryer can transform your daily hair care routine.

Taking care of your hair

With the Coshare dryer, styling your hair will be more enjoyable than ever before! The device uses ionization technology to generate as many as 500 million negative ions. This solution helps reduce frizz and static, making your hair smooth, soft and manageable. You also don't have to worry about scalp burn - an advanced sensor monitors the air temperature as many as 100 times per second to prevent hair damage.

Choose from available settings

Coshare has taken care of different users' needs. The HD10E Pro dryer allows you to choose from 4 temperature settings and 3 speed settings. This allows you to perfectly adjust its performance to your preferences and needs. At your disposal are cold, warm and hot air, as well as air circulation mode. All you have to do is press the dedicated button - the corresponding color of the light indicator will inform you of the selected mode.

Created with the user in mind

The dryer impresses with its extremely lightweight and compact design. Its weight is only 390 g, so you can style your hair comfortably without worrying about feeling tired or uncomfortable. You can also easily fit it into your suitcase and take it with you on vacation! The 2-meter long cable will give you even more freedom of movement. What's more, its volume level does not exceed 57 dB, so you can use it, regardless of the time of day or night.

Additional accessories

In addition to the dryer, you'll also find additional accessories that will make styling easier and your hair look fantastic! The diffuser is the perfect accessory for those with naturally curly hair, helping to increase its natural volume. The concentrator, on the other hand, directs a stream of hot air to a specific area of your hair, so you can dry your hair even faster! The kit also includes an innovative ethereal tip that leaves hair shiny, fragrant and soft to the touch.
