Baseus Mini Air Magnetic 10000mAh 20W Power Bank (Black)

Discover powerful charging in a compact form with Baseus! The Mini Air Power Bank is the perfect solution for anyone in need of a reliable source of power while traveling, working, or going about their daily activities. With its 10000mAh capacity, it can charge your smartphone multiple times, providing essential power in any situation. It offers both wireless and wired charging options, and thanks to its compact dimensions and lightweight design, you can take it with you anywhere - even on an airplane.

Wireless and Wired Charging in One

Choose your way of charging! The Baseus Mini Air Power Bank allows for both wired and wireless charging with up to 15W of power. It comes with a USB-C cable, which enables you to replenish the energy of selected devices with a maximum power of 20W. This is not only a practical and convenient solution but also the assurance that your devices will always be ready to go, no matter where you are.

10000mAh Capacity

The Baseus Mini Air is ready to provide you with power at any moment. The power bank offers a capacity of 10000mAh, allowing you to successfully recharge popular smartphones two or three times on a single charge. A 4-level LED indicator will keep you informed about the battery's charge status. Now you have enough energy reserve to survive long journeys or busy workdays.

Safety First

You no longer have to worry about damaging your devices while charging! The Baseus Power Bank is equipped with numerous protections that ensure comprehensive protection against potential threats. It effectively guards against overcharging, overloading, short circuits, and overcurrent. Furthermore, the advanced NTC chip intelligently controls the temperature during charging, preventing overheating.

Lightweight and Compact

The Baseus Mini Air has been designed with attention to the smallest details. Its lightweight and compact construction allow you to have it within arm's reach at all times. It is designed not to obstruct your phone's camera, and thanks to the strong built-in magnets, you can be sure that your device will remain stable in place during the charging process. You can comfortably charge your devices in both portrait and landscape orientations, all without having to remove your case.

Included in the Package:

Power bank

USB-C to USB-C cable

□Manufacturer

□Baseus

□Battery Type

□Lithium Polymer

□Battery Capacity

□10000mAh / 37Wh

□Nominal Battery Capacity

□5800mAh (5V/2.4A)

□Energy Conversion Efficiency

□>=75%

□USB-C Input Current

□5V/3A, 9V/2A

□USB-C Output Current

□5V/2.4A, 9V/2.22A, 12V/1.5A

□Wireless Charging Power

□5W / 7.5W / 10W / 15W

□Material

□PC+ABS

□Dimensions

□109.1 x 70.4 x 18.5 mm

□Weight

□Approximately 203 g

□Color

□Black
