

## Smart temperature and humidity sensor Wi-Fi Gosund S6 (LCD s

Ref: 6972391287763

Smart temperature and humidity sensor Wi-Fi Gosund S6 (LCD screen, backlight)

Smart temperature and humidity sensor Wi-Fi Gosund S6 (LCD screen, backlight)

Take care of optimal conditions in your surroundings. The intelligent sensor Gosund S6 accurately measures temperature and air humidity - measurement results can be found on the backlit LCD screen or in the application. The product allows you to choose the unit (°C or °F) and works with other devices, enabling automation. It is also compatible with voice assistants Google Assistant and Amazon Alexa.

### Customize It to Your Needs

The S6 sensor allows you to choose the temperature measurement unit - available options are °C and °F. After changing the settings, the device will synchronize the data displayed on the screen and in the application. You can also choose the time display format (12-hour or 24-hour).

### Automation Possibilities

Enjoy greater comfort in your home. Using the application, you can connect the sensor to other devices to automate their operation. This way, for example, when the humidity in the environment drops below a certain level, the air humidifier will automatically start.

### Compatibility with Voice Assistants

The sensor is compatible with smart assistants such as Amazon Alexa and Google Assistant. So, you can control it with your voice! Now, just a few words are enough to find out the temperature or humidity in a selected room.

#### Perfect for Various Applications

This practical sensor will work perfectly in different rooms. You can use it in the bedroom, child's room, or greenhouse. If you want, hang it on the wall or simply place it on a table or shelf. With it, you can keep track of and be sure that optimal conditions prevail in your chosen environment.

#### Additional Features with the App

The dedicated Gosund app allows you to view historical data on temperature and humidity. You can also store them for a year and export them to your email address. However, that's not all the possibilities. The app also offers an alarm function - when the temperature or humidity exceeds the set level, you will receive an immediate notification.

#### Brand

Gosund

#### Model

S6

#### Power Supply

3x AAA batteries

#### Wi-Fi Standard

2.4 GHz IEEE 802.11 b/g/n

#### Temperature Measurement Range

From -9.9°C to 60°C

#### Temperature Measurement Accuracy

±1°C

#### Humidity Measurement Range

0% RH - 99% RH

#### Humidity Measurement Accuracy

±5% RH

#### Dimensions

56 x 56 x 23 mm
