

Smart plug WiFi Gosund SP111 3680W 16A, Tuya 2-pack

Ref: 6972391282140

Smart plug WiFi Gosund SP111 3680W 16A, Tuya 2-pack

Operate wherever you are

Gosund SP111 is a 3680W smart outlet that has an EU plug. Through the app, we can control lighting or other household appliances, directly from the app on our smartphone -Smart Life (Tuya app downloadable for free on Android and iOS). After connecting the product to a local network and adding it to our app, we can control it from anywhere on earth where we have internet access. The product can be assigned to multiple users in the app, so that all household members can control the device. The device works with the latest systems: IFTTT, Amazon Alexa and Google Home

Easy to use

The Smart Life application is available in Polish, in addition to the standard switching on and off of devices, it also offers the creation of schedules for individual devices, so it can automatically turn on and off connected devices at specific times. In the application we can track the current energy consumption of the devices in question, also on graphs. Gosund devices work only in 2.4GHz WLAN networks. With the app, you can schedule devices in your home (including lamps) to simulate the presence of an occupant, which can deter a potential burglar.

Ergonomic design

The Gosund SP111 plug is made of the highest quality materials. Thanks to its small size, we can effectively use it in various types of

power strips, compared to other plugs, it has been carefully designed so as not to waste space. The plug also comes with blanked plugs at the factory, making it safe for children. It is ROHS and CE certified, the housing is safe and fireproof.
