GameSir T1d Wireless Controller (Black)

The GameSir T1d Wireless Controller is a convenient tool that revolutionizes the way you interact with the Tello drone. This sleek, black controller is not designed for gaming; it's a device engineered to provide users with an unparalleled Tello drone flying experience. With it, you can perform fantastic acrobatics, enjoy precise control and ease of use, all without the need for third-party applications.

Precise Control with 3D Joysticks

Two advanced 3D joysticks provide users with 360-degree control, which is essential for precise drone maneuvering. With them, you can easily perform complex acrobatics and maneuvers, making your flights more exciting and satisfying.

Simple and Intuitive Operation

The GameSir T1d controller stands out for its ease of use. It connects directly to the Tello app, eliminating the need to use apps from other companies. This seamless integration ensures a quick start to your flight without unnecessary complications.

Compatibility with Various Systems

The controller is compatible with devices running Android 4.4 and newer as well as iOS 9.0 and newer, making it available to a wide range of users. Flexibility in terms of compatibility ensures that a greater number of drone enthusiasts can enjoy this device.

Efficient Battery

The controller is equipped with a 600mAh battery that provides long-lasting usage without the need for frequent charging. Charging voltage of 3.7V~5V and charging current of 1A allow for easy and quick recharging of the device. Additionally, the GameSir T1d is equipped with Bluetooth 4.0 for seamless connectivity, and the micro USB port is solely for charging, maintaining an aesthetic and functional design.
