Water flosser with nozzles set Bitvae BV F30 (white)

Bitvae BV F30 Irrigator with Nozzle Set (White)

The Bitvae BV F30 Irrigator is an innovative solution for oral health care. Its unique combination of advanced technology and elegant design sets it apart in the market. With a variety of operating modes, high efficiency, and long-lasting battery, the Bitvae BV F30 irrigator is perfect for anyone seeking an effective way to maintain oral hygiene.

Multi-Functional Operating Modes

The Bitvae BV F30 Irrigator features 5 operating modes tailored to different oral health needs. The 'soft' mode is ideal for individuals with sensitive gums, beginners, or those with orthodontic braces. The 'normal' mode is perfect for everyday oral hygiene, while the 'potent' mode effectively removes plaque, preventing tartar buildup. The 'pulse' mode provides support for gum diseases, and the 'point' mode ensures precise cleaning around dental appliances.

Advanced Intelligent Chip

At the heart of the irrigator is an intelligent chip that ensures reliability and precision. Thanks to this chip, the irrigator operates at optimal efficiency, adjusting water pressure according to the selected mode. This technology guarantees not only effectiveness but also safety during use.

Performance and Effectiveness

The Bitvae BV F30 Irrigator stands out with exceptional performance, generating 1200 pulsations per minute. Such a high pulsation frequency ensures thorough and deep cleaning between teeth and along the gumline, which is crucial in preventing dental problems.

Durable Battery and Long Operating Time

Equipped with a lithium-ion battery, the irrigator offers up to 70 days of use after just 4 hours of charging. The USB-C connector further simplifies charging, making this model extremely convenient for everyday use.

Complete Nozzle Set

The set includes 6 different nozzles, including 3 classic ones, one for orthodontic braces, one for gum cleaning, and a unique nozzle for tongue cleaning. This equipment allows for comprehensive oral care tailored to the individual needs of each user.
