Ref: 5907489604154

Smart Socket BlitzWolf BW-SHP13, ZigBee, (EU) 3680W

Blitzwolf BW-SHP13 smart socket

Take smart home management to a new level. The Blitzwolf BW-SHP13 smart outlet allows you to remotely control your connected devices with an app or voice commands. Create work schedules and pair your appliances with additional sensors (not included) to make your life even easier. The product also allows you to monitor your power consumption. It is also incredibly durable and resistant to damage. Note: for proper operation the socket requires a working ZigBee gateway (not included).

Wide compatibility and plenty of connectivity

Do you have a ZigBee 3.0 gateway and are looking for a socket that is compatible with it? You have just found it! BW-SHP13 works perfectly not only with it, but also with various sensors. What does this mean in practice? For example, you can set your air conditioner to start automatically, when high temperature is detected. The product is also compatible with lighting, security cameras and various mobile devices, among other things.

Create timers, schedules and smart scenes

Adapt your smart home to your lifestyle. The dedicated app allows you to create schedules, scenes and timers. Make your air conditioner start working when you're at work, and turn the lights off when you leave the house. Your child doesn't like to fall asleep in the dark? Set the lamp in his room to turn off only after a certain time! Now you can easily customize your home with just a few clicks on the app!

Control your devices with your voice

Cooking, your hands are busy, and you could use some extra lighting? Or maybe you are lying comfortably in bed, you want to go straight to sleep, but you still need to turn off the light? Now it is not a problem anymore! The socket is compatible with Google Assistant and Amazon Alexa, so you can control your connected devices with voice commands. Just give the right command and watch your home adapt to your expectations!

Say goodbye to excessive electricity bills

The Blitzwolf smart outlet will not only allow you to enjoy unparalleled convenience, but also save electricity and therefore money! The app allows you to monitor your energy consumption in real time. You can check the current data at any time, not only at home, but also, for example, at work or on vacation - just reach for your smartphone. Get more control over your home appliances and say goodbye to high bills!

Comfort and safety of use

The product is incredibly user-friendly. You can operate it with a convenient button, and information about its status will provide you with a special indicator. The socket is made of high-quality ABS and PC plastics, which provide it with not only durability, but also resistance to fire and damage. Moreover, the product is also compatible with standard French-type plugs.
