Ref: 6935280822124

Wireless mechanical keyboard Royal Kludge RKM75 RGB, Silver switch (blue)

Royal Kludge RKM75 RGB Mechanical Keyboard, Silver switch (blue)

Are you looking for a proven piece of equipment that will perform equally well for work and entertainment? Royal Kludge mechanical keyboard will be the perfect choice! It will adapt to you in every way, as you can not only freely exchange switches in it, but also connect to it in different ways. Moreover, its well-thought-out design will ensure uninterrupted comfort during use.

Many possibilities

The Royal Kludge keyboard was created with multiple usage scenarios in mind. It is equipped with 2 USB-C ports, so you can connect several devices to it simultaneously. It is compatible with phones, storage devices, mice, headphones, and that's not all! What's more, you'll find a special cover included to protect the keyboard from dust and water.

With gamers in mind

If you are a fan of gaming, this keyboard is also for you! It allows you to change switches freely, and the included special key will make this task easier. It uses silver switches that improve accuracy and pressure. They show faster startup and high stability. This will make them an ideal option for long term gaming!

Tailored to your needs

The Royal Kludge keyboard will adapt to your needs. In the dedicated PC application, you can change its settings according to your expectations. Among other things, you will be able to change the use of the keys or choose the backlighting you are interested in. This will personalize the keyboard and make your work even more comfortable! In addition, equipped with non-slip feet, it will always stay in place.

Many possibilities for connection

Royal Kludge responds to the needs of users and gives you the opportunity to connect to the keyboard in as many as 3 different ways! If you are a fan of traditional solutions - choose a wired connection, using a cable. However, if you want to get rid of tangled wires, connect to selected devices using a 2.4 GHz network or Bluetooth (in which you can connect to as many as 3 devices simultaneously). Moreover, you can conveniently switch between connected devices, thanks to a special switch, located on the keyboard.

RGB backlighting

Give your work more color! Royal Kludge keyboard is equipped with RGB backlighting, which includes up to 16.80 million colors. What's more, there are also 14 different modes at your disposal. Customize the colors for your current mood or gameplay and give your keyboard a unique look!

High compatibility

The Royal Kludge device shows high compatibility, so you don't have to worry that it won't work with your hardware. It works with phones, mice, headphones, however, not only! You also don't have to worry about the operating system you use, as this keyboard will work with Windows, iOS/ Mac OS, Android and Linux. Enjoy exceptional freedom!
