TWS EarFun Air2 headphones (black)

Now your favorite songs will always sound great! The TWS EarFun Air2 headphones reproduce richly detailed sound, allowing you to enjoy your music in the highest quality. Their operating time with the charging case reaches up to 40 hours, and with built-in microphones with ENC, phone calls will be crystal clear, even in noisy environments. They're IPX7 water resistant, which means they're the perfect companion for workouts or daily outdoor activities. The EarFun Audio App gives you full control over audio settings, and the compact charging case allows you to charge with both a USB-C cable and wirelessly.

Unforgettable moments with your favorite music

Get ready for sound that will transport you to another dimension! The Air2 headphones feature dynamic 10mm composite drivers that deliver incredible clarity and richness of sound. With support for the LDAC audio codec and Hi-Res Audio support, you can enjoy studio-quality music that captures every nuance, note by note. Now you can enjoy music the way the artist intended, discovering new details and emotions in every sound.

Call quality at a new level

Whether you're in a crowded shopping mall, in the car or outdoors, EarFun Air2 delivers excellent call quality, allowing you to always stay in touch with others. The headphones feature as many as 4 microphones with ENC technology, which allow you to make clear phone calls

even in noisy environments, effectively eliminating sound interference around you.

Reliable connection - Bluetooth 5.3

Interference, delays and other connection problems are a thing of the past! Thanks to the latest Bluetooth 5.3 standard, the headphones provide a fast, stable and energy-efficient connection to your device. What's more, the range reaches up to 15 meters, giving you the freedom to move around without worrying about losing the connection. But that's not all - EarFun Air2 allows you to connect to 2 devices simultaneously. From now on, you can listen to music on your smartphone and take calls on your tablet or laptop at the same time, without having to switch constantly

Perfect for a music marathon

Ready for endless entertainment? Thanks to a long-lasting battery, you can listen to your favorite music continuously for up to 5.5 hours with LDAC mode on, or up to 9 hours when you turn it off. The included charging case will allow you to extend their runtime to 23 or even 40 hours, respectively. This means the EarFun Air2 can accompany you on any long trip, workout or a full day of listening to your favorite tunes!

For game lovers

Nothing is stopping you from becoming a true master of virtual worlds anymore! TWS EarFun Air2 headphones offer a gaming mode that guarantees an incredibly low latency of just 55 ms. This ensures that you won't miss any of the action and gain an instant advantage over your rivals in online games.

Comfort comes first

The EarFun Air2 not only deliver great sound, but also take care of your comfort. Their thoughtful design ensures that the headphones stay firmly in your ears, staying in place even during intense movement. The low weight combined with the ergonomic design guarantees dreamlike comfort during hours of listening to music. You'll also find interchangeable rubber bands in 4 different sizes, allowing you to customize the headphones even further.

Full control in your hands

With EarFun Air2, controlling your music player is easier than you think. Their built-in touch panels allow for convenient operation, so you can control your music, answer calls or activate the voice assistant with a single touch. What's more, the dedicated EarFun Audio App allows you to customize the functions of the touch panels, choose from different EQ modes to tailor the sound to your liking, and locate the headphones in case you lose them.

Ready for any challenge

EarFun headphones won't let you down even in harsh conditions! Thanks to IPX7 water resistance and innovative SweatShield technology, you can confidently use the headphones during intense workouts, running or even on rainy days. Sweat or accidental splashing are no problem for them!
