

CPU active cooling Darkflash Darkair LED (heatsink + fan 120

CPU active cooling Darkflash Darkair LED (heatsink + fan 120x120) white

Ref: 4710343792475

Darkflash Darkair LED white active CPU cooler

Provide your CPU with optimal working conditions. Darkflash Darkair LED active cooling guarantees efficient cooling and heat dissipation and optimizes this process in real time. It also features LED backlighting, giving your hardware configuration a modern touch.

Performance first and foremost

The design of the device has been thought out in such a way as to achieve maximum efficiency. The copper base fits perfectly to the CPU to achieve high thermal conductivity. The cooling is also equipped with 4 heat pipes, responsible for an even, efficient heat dissipation. What's more, the PWM function controls the speed of the fans in real time - optimizing their operation.

User-friendly

Don't be afraid of problems when installing the cooler. The product is user-friendly and installation is relatively simple. The device is compatible with Intel and AMD platforms - sure to work well with your hardware.

Producer

Darkflash

Model

Darkair LED

Color

White

Cooling type

Active

Number of fans

1

Speed

1600 RPM

Maximum noise level

29 dBA

Service life

30000 h

Supply voltage

12 V

Connector

4 Pin

Bearing type

Hydraulic Bearing

Illumination

LED

Number of heat pipes

4

Compatibility

Intel: LGA 115x / 1366 / 17xx

AMD: AM4/FM2 / FM1 / AM3+ / AM3 / AM2+ / AM2

Fan Size

120x120x25 mm

Dimensions

121.7 x 156.85 x 45.7 mm

Weight

300 g

Heat sink material

Copper + Aluminum

TDP

160 W

Price:

€ 27.99

Gaming, Cooling, Active cooling
