Ref: 4710343796466

Computer case Darkflash DK 260 Air Mesh (Black)

Computer case Darkflash DK 260 Air Mesh (Black)

Want to build the perfect computer for work or gaming? The Darkflash DK260 Air Mesh case will help you with that! It offers many expansion options and is compatible with most commonly used components. It comes equipped with USB 3.0 and 2.0 ports and, thanks to transparent side panels, allows you to showcase selected elements in an interesting way, such as fans with RGB lighting. Additionally, the mesh structure on the front panel ensures better airflow.

### Original Design

The case is equipped with 2 side panels made of tempered glass, which are very durable and allow you to give your hardware configuration an original character. You can, for example, use components with RGB lighting to achieve fantastic visual effects. With Darkflash, your computer will not only perform perfectly but also look great!

### Ensure Proper Cooling

Play dynamic games and use demanding software without worrying that your computer will overheat and stop working. The Darkflash case allows you to install up to 8 120mm fans or 2 140mm fans. You can also install a 360mm liquid cooling system. The DK 260 Air Mesh model also features a front panel with a mesh structure, which allows for even better heat dissipation.

### Wide Compatibility

The DK 260 Air Mesh model is compatible with ATX, M-ATX, and ITX motherboard standards. It allows you to install a graphics card with a length of up to 340mm and a CPU cooler with a height of up to 165mm. You can install the power supply unit at the bottom of the case. The product also allows for the installation of 2 HDDs or 3 SSDs. This means you don't have to worry about running out of space for your files!

### Multiple Available Ports

Enjoy the wide capabilities of your computer. The case is equipped with 2 USB 2.0 ports and one USB 3.0 port, which allows for fast device charging and supports high-speed file transfers. So, you can quickly transfer your photos or documents! The DK 260 Air Mesh model also offers an LED button for convenient lighting control.
