Gaming mouse ONIKUMA CW902

Ref: 6972470560879

ONIKUMA CW902 gaming mouse

The ONIKUMA CW902 gaming mouse is your key to winning the game. It offers 6-position DPI adjustment, which will allow you to customize the mouse's precision to your gaming style. The ergonomic design will provide dreamlike comfort during hours of gameplay, and the colorful RGB backlighting will increase your level of immersion.

Full control over precision

The ONIKUMA CW902 offers unparalleled control thanks to its 6-level DPI adjustment from 800 to 6400. This means you can adjust the mouse's precision to any gaming situation. At lower levels, you'll gain excellent precision, ideal for aiming and precise movements, while at higher DPI levels you'll increase cursor speed, which will come in handy in dynamic situations where quick reactions count.

Gaming character

The ONIKUMA mouse will be the perfect addition to your gaming workstation. It features dynamic RGB backlighting, which not only gives it a modern touch, but also serves a practical function. Each DPI level is assigned to a different color, which means you can instantly recognize what level you are working at.

With convenience in mind

Its design was created with your comfort in mind during long gaming sessions. Thanks to its ergonomic design, the ONIKUMA CW902 fits perfectly in your hand and provides natural hand positioning to reduce fatigue and muscle tension. Now you can play for hours without feeling fatigue or discomfort.
