

Orico 2,5" external HDD enclosure with stand, USB-C 3.1 + c

Ref: 6936761870474

Orico 2,5" external HDD enclosure with stand, USB-C 3.1 + cable (USB 3.0 to USB-C)

Orico 2.5" External HDD enclosure

The 2.5" HDD enclosure comes with a separate, practical stand that allows it to be placed stably on any flat surface. The product allows for file transfer rates up to 10 Gbps and supports devices with capacities up to 4 TB. It will prove itself in many applications. The case is also extremely durable and a blue LED indicator will let you know its status.

Lightning fast data transfers

The advanced VL716 chip and the SATA Revision3.0 connection scheme ensure an incredible file transfer rate of up to 10 Gbps. The chassis also supports UASP and TRIM protocol to optimize CPU usage and reduce data copy time. With Orico you will transfer the documents, photos or videos you need in no time!

Large supported capacity - lots of application possibilities

The product is compatible with hard drives up to 4 TB. So you can get enough space to store up to 600,000 images or 6,000 HD videos. Such a large memory in combination with fast data reading and writing makes the Orico enclosure suitable for many applications. With its help you can back up important files, comfortably play games on PS4 or watch a movie on the big TV screen.

Automatic shutdown after 10 minutes of inactivity

Intelligent solutions used during the production process allow the enclosure to increase its efficiency. After 10 minutes of inactivity, the device automatically goes to sleep mode, so you can avoid excessive HDD reads and thus prolong its life.

Practical LED indicator

With Orico, you only need a glance to know the status of the device. The enclosure is equipped with a small LED indicator that provides you with the most important information. When it glows blue, it means that the equipment is on. When it blinks red, data is being read.

Well-thought-out design - solid workmanship

The case is transparent, which makes it easy to identify the hard drive inside. The product is made of durable materials and is extremely resistant to damage and wear. The advanced PCB circuit, high quality capacitor and gold-plated SATA Revision3.0 port are responsible for the amazing performance.

Included

External enclosure for HDD

Stand

USB-C to USB 3.0 (5 Gbps) cable

□Brand

□Orico

□Model

□2159C3-G2-CR-BP

□Material

□PC

□Chip

□VL716

□Compatibility

□2.5" Hard Disk Drives

□Output interface

□USB 3.1 Type-C

□Input interface

□SATA Revision3.0

□Transmission Speed

□Up to 10 Gbps

□Power source□

□USB port
