Ref: 5905316148987

Computer case Darkflash DS900 AIR (white) + 7 ARGB Fans

Computer case Darkflash DS900 AIR (white) + 6 ARGB Fans

Discover a new quality among computer cases with the Darkflash DS900 AIR model. The elegant white model is distinguished not only by its modern design, but also by advanced features that will meet the expectations of the most demanding users. With DS900 AIR your computer will become more efficient, stable and impressive. In the set you will find 6 DM12F 120 mm fans.

Stability and design

The unique design of the case with trapezoidal feet and shock-absorbing pads provides exceptional stability, eliminating vibrations. This is especially important for powerful computers that can generate vibrations during intensive work.

Expandable

The DS900 AIR is a model that provides users with ease of expansion. The spacious and easy-to-maintain interior gives you the freedom to expand. The chassis offers maximum compatibility with a flexible mount that accommodates up to 2 SSDs and 2 HDDs. This provides excellent options for configuring storage according to individual needs.

Protection and cooling

The DS900 Air allows you to build a powerful cooling system with the ability to mount multiple fans and heat sinks, ensuring optimal

working conditions for all components. What's more, the back of the case is equipped with a protective steel mesh that allows for even more efficient ventilation. This is crucial for maintaining optimal temperatures and effective cooling especially during intensive work.

Compatibility and additional slots

The Darkflash DS900 AIR is compatible with ATX, M-ATX and ITX motherboards, providing a wide range of configuration options. It also features 7 additional slots, a maximum VGA length of 425 mm and a maximum CPU height of 170 mm. The power supply located at the bottom of the case allows for better organization and cable management.
