

**Lention 8in1 Hub USB-C to 3x USB 3.0 + SD/TF + PD + USB-C +**  
Lention 8in1 Hub USB-C to 3x USB 3.0 + SD/TF + PD + USB-C + HDMI 4K60Hz (gray)

Ref: 6955038349383

Hub 8in1 Lention USB-C to 3x USB 3.0 + SD/TF + PD + USB-C + HDMI 4K60Hz (gray).

The 8in1 Lention Hub is a tool that not only expands the number of available ports, but also increases the productivity and efficiency of your work. It has up to eight different ports, including HDMI, USB, USB-C or memory card slots, providing you with almost unlimited possibilities. All of this is enclosed in a compact design, so you can always have it with you, ready to go at any time.

Discover a new image quality

Whether you're working on graphic design projects or watching your favorite movies, the Lention hub will give you an unforgettable visual experience. With 4K@60Hz resolution, you can enjoy images with incredible sharpness and color depth. The HDMI port also offers support for 2 display modes - Extend, which allows you to expand your workspace and manage tasks more conveniently, and Mirror, which allows you to duplicate your screen, perfect for presentations or sharing content with others.

Copy and transfer files at an express pace

With the Lention hub, data transfer becomes faster and more efficient than ever before. USB-C and USB 3.0 ports allow you to transfer files at speeds reaching up to 5 Gbps. This means that transferring files, copying media or creating backups is done in the blink of an eye. What's more, SD and TF memory card slots provide access to data at read speeds of 30MB/s, making it easy to manage and store files.

#### Full power in a few moments

No longer do you have to wait for hours to fully charge your favorite devices! The PD port offers charging power of up to 100 watts, which means you can charge even your most demanding devices in even less time. This is ideal for busy people who need a fast and reliable power source.

#### Compatible with your equipment

The Lention Hub is compatible with a variety of MacBook Pro and MacBook Air models, including the latest versions with M1 and M2 chips. It also works with the new iMac/Pro, MacBook 12, Surface Pro 7/8 & Book 2/3 & Go, Chromebook and many other Type-C devices. What's more, thanks to the use of specially developed technology, the hub guarantees the maximum level of performance and security, eliminating the risk of overheating of connected devices.
