

Filters Shutter PolarPro ND8, ND32, ND128 for DJI Mini 4 Pro

Filters Shutter PolarPro ND8, ND32, ND128 for DJI Mini 4 Pro

Ref: 810148700195

PolarPro ND8, ND32, ND128 Shutter Slowing Filters for DJI Mini 4 Pro

ND8/32/128 filters slow down the shutter speed so you can record high-quality footage in almost any lighting conditions. To achieve the effect of the ND16 filter, just use the ND32 filter and increase the ISO sensitivity to 200. What's more, the filters are distinguished by their lightweight design, so they will not negatively affect the flight of the drone.

- Manufacturer
- PolarPro
- Model
- Mini4-SHUTTER
- Type
- ND8/ND32/ND128
- Compatibility
