VND 3-5 PolarPro filters for iPhone 15

PolarPro's VND 3-5 filter is designed for the iPhone 15, effectively reducing the shutter speed and reducing the amount of light entering the lens by 3-5 degrees. Instant mounting ensures that you won't miss a unique shot, and compatibility with the LiteChaser case enhances freedom of use. In addition, the use of German CinemaSeries glass and 16 optical coatings provide protection against scratches and stains.
