

## Thermometer gun Deko Tools CWQ02

Thermometer gun Deko Tools CWQ02

Ref: 6974491586807

Deko Tools Thermometer gun CWQ02

The Deko Tools CWQ02 pyrometer is an extremely useful and easy to use device. It enables non-contact temperature measurement of a wide variety of objects and has a response time of just 0.5 seconds. The D:S 12:1 optics ensure precision when measuring, and with a temperature range of -50 °C to 600 °C, the device is suitable for both domestic and industrial use. For power supply, 2 AAA batteries are sufficient.

Speed and precision

The Deko Tools CWQ02 pyrometer is distinguished by its fast response time (0.5 s) and wide temperature range (from -50°C to 600°C). It enables safe, non-contact temperature measurement with an accuracy of 1.5°C above zero and 3°C below zero. The built-in display makes it convenient to read the values.

All-round performance

The Deko Tools CWQ02 pyrometer will serve to measure temperature in many different situations. With a range from -50 °C to 600 °C, the device allows you to check the temperature of boiled water in a kettle, a computer case or frozen ground without contact. Its emissivity is 0.95 and is a constant value.

**Manufacturer**

Deko Tools

**Name**

Pyrometer Deko Tools CWQ02

**Model**

CWQ02

**Temperature range**

-50~600°C (-58~1112°F)

**Accuracy**

≥0°C: ±1.5°C, &lt;0°C: ±3°C

**Spectral response**

8-14 um

**Resolution**

1% of reading or 1 °C

**Response time**

0,5 s

**D:S**

12:1

**Emissivity**

0.95, non-adjustable

**Working temperature**

0~50°C (32~122°F)

**Operating humidity**

10-90% RH non-condensing

**Storage temperature**

-20~60°C(-4~140°F), without battery

**Power supply**

2x AAA (not included)
