Wireless keyboard for iPad with tablet holder KB088 Omoton (pink)

Make it easy to use your iPad. The Omoton KB088 Wireless Keyboard features 78 keys and has a retractable stand on which you can place your tablet or phone. It also offers plenty of useful keyboard shortcuts. The device connects to your iPad via Bluetooth and is powered by just two AAA batteries (not included).

Retractable stand

Now you can work, take notes or just surf the web even more comfortably. The keyboard is equipped with a pull-out stand on which you can stand your smartphone or iPad stably. The stand is compatible with devices with a diagonal of 4-11". It will give you more comfort and save space on your desk! What's more, when you don't need the holder, you can simply fold it up and slide it into the keyboard.

Smooth, reliable operation

The keyboard features a QWERTY layout and is equipped with 78 scissor-switched keys for smooth operation and fast response times. With a lifespan of up to 3 million keystrokes, it's sure to serve you well for a long time. There are also a number of keyboard shortcuts available, allowing you to adjust the screen brightness and volume conveniently, for example.

Broad compatibility - stable connection

Mobilemax - Gadgets and Accessories Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal (Continente) Phone: +351962484153 (Call to national mobile network) Email: info@mobilemax.pt

Ref: 6975969180336

The product is compatible with both iPadOS and iOS. This means you can easily pair it with both selected iPad and iPhone models. What's more, the keyboard connects to your devices via Bluetooth, so you can enjoy a fast, stable and reliable transmission. Forget about delays and signal quality problems!

Long battery life

To power the keyboard, you need two AAA batteries (not included), which you can easily buy in many shops. You won't need to replace them too often either. The keyboard offers up to 30 days of uninterrupted operation. It also automatically enters sleep mode to save power. As a result, it can last you up to 6 months before you need to buy new batteries!

Portable design

Manufacturer []

This practical keyboard can accompany you almost anywhere. Weighing only about 300 g, it is compact enough to fit easily into a backpack or handbag. Take it with you to university, work or the library with ease. What's more, thanks to the quiet keys, you don't have to worry about the clicking noise disturbing anyone! All this means you can make it easy to work with your iPad wherever you want.
