

## Tripod PGYTECH MantisPod Pro (P-CG-020)

Tripod PGYTECH MantisPod Pro (P-CG-020)

Ref: 6970801336797

Innovative PGYTECH P-CG-020 MantisPod Pro tripod

Gain more interesting perspectives and create tons of unique shots. The groundbreaking PGYTECH MantisPod Pro tripod offers 7 modes of operation, and with the included mount you can easily attach your phone to it. The Cold Shoe adapter allows you to mount additional accessories. The product is made of lightweight yet durable materials. The foldable design allows you to always have it with you and record stunning footage almost anywhere.

Try the new Mantis mode and gain a unique perspective

Explore the groundbreaking Mantis mode, which lets you hang your tripod from any surface of your choice and gives you a unique perspective. Unleash your creativity, get the recording angle of your dreams and feel like a pro! Record an interesting interview, capture your culinary show-offs or prepare an interesting travel report - the possibilities are almost endless. The 3 support points will give your equipment the necessary stability - no need to worry about the camera falling down and getting damaged.

Even more modes to choose from

There's more! Try out all the available MantisPod Pro modes and find the perfect perspective for every shot. Create an original vlog, make a makeup tutorial or host a live broadcast. The product also lets you quickly switch between horizontal and vertical recording - if you're a TikTok user, for example, you'll find this handy. There's also a mode that allows you to film from a frog's perspective and one

that's ideal for portraits.

#### Enjoy the freedom of recording

Enjoy the freedom of your dreams. The product is designed in such a way that you can quickly and conveniently switch between tripod and handheld modes without having to adjust the camera angle. You can also rotate the adapter 360° so you can take portraits and panoramas with ease. In addition, the Cold Shoe mount allows for easy mounting of additional accessories such as a microphone or lighting. Want to change the position of the mounting plate? No problem! You can easily reposition it without risking falling and damaging your camera.

#### Fast and stable mounting of your camera with SnapLock system

Say goodbye to the hassle of the mounting plate coming loose and unscrewing. The MantisPod Pro tripod uses an Arca-Swiss compatible patented SnapLock system with a specially designed clamping screw. This makes it easy to mount your camera on it without wasting time on tedious tightening of the knob. You also do not have to worry about the safety of your equipment. The applied solutions will provide the necessary stability.

#### Record with your smartphone too

Create stunning shots not only with your camera, but also with your smartphone. You'll find a small phone holder in one of the tripod legs to further enhance your recording capabilities. The Arca-Swiss mount and 1/4" hole provide wide compatibility, and the Cold Shoe adapter lets you mount additional accessories.

#### Wide compatibility

What else sets the PGYTECH MantisPod Pro tripod apart? Wide compatibility! The product can support many models of cameras and camcorders from well-known brands. For example, it fits Canon EOS M6 Mark II, Sony Alpha 6600, RX0, Alpha 7 Series, Alpha 9 Series and Vlog Camera ZV-1, FUJI X-A5, X-T4, X-E3 and X-S10, Nikon Coolpix Series, Panasonic G Series (Lumix G100) and Olympus PEN Series.

#### Lightweight, handy and durable

Tripod that is both durable and lightweight? PGYTECH proves that anything is possible! The tripod's legs are made from high-grade magnesium, which weighs much less than the usual aluminum alloy, yet is incredibly durable and resistant to damage. This, combined with its foldable design, means that it can accompany you almost anywhere - you can easily fit it in a backpack or handbag. What's more, ergonomic handle is covered with pleasant to the touch rubber, which makes it even more convenient to use.
