Ref: 6976100485112

PGYTECH ND 8, 16, 32, 64 Filters for Osmo Pocket 3

The PGYTECH ND 8, 16, 32, 64 Filters Set for Osmo Pocket 3 is an essential tool for every photography and videography enthusiast. These filters help reduce the amount of incoming light, allowing the camera to accurately determine the appropriate exposure value and preventing overexposure. Through an advanced light reduction process, they eliminate color distortion issues, resulting in virtually zero color shift.

High-Quality Construction

The lenses are made from Japanese AGC optical glass, which has undergone high-resolution processing and is coated with a multi-layer nano coating, making them resistant to water, oil, dirt, and scratches. The filter set is exceptionally lightweight and does not adversely affect the gimbal's calibration. Furthermore, its magnetic design makes installation incredibly simple and fast.

Included in the package:

- Filters x4
- Cleaning cloth
