Ref: 6976100485136

Filters ND/PL 8, 16, 32, 64 PGYTECH for DJI Osmo Pocket 3

PGYTECH ND/PL 8, 16, 32, 64 Filters for DJI Osmo Pocket 3

The PGYTECH ND/PL 8, 16, 32, 64 Filters Set for DJI Osmo Pocket 3 is an essential accessory for every filmmaking enthusiast. With these filters, you can reduce the amount of light entering the camera, eliminating the effects of polarized light. The filters also enhance color saturation and make the image more vivid and sharp. Thanks to the advanced light reduction process with coating, you don't have to worry about color distortion issues that can occur with traditional ND filters.

High-Quality Construction

The lenses are made from Japanese AGC optical glass, which has undergone high-resolution processing and is coated with a multi-layer nano coating, making them resistant to water, oil, dirt, and scratches. The filter set is exceptionally lightweight and does not adversely affect the gimbal's calibration. Furthermore, its magnetic design makes installation incredibly simple and fast.

Included in the package:

- Filters x4
- Cleaning cloth
