PGYTECH OneGo Backpack/Bag (Cream)

The PGYTECH OneGo Bag is a practical piece of equipment for every photography enthusiast. Its carefully designed construction allows for safe and convenient storage of your gear. The multi-layer lining reliably protects against shocks and damage, ensuring the safety of your camera. It is made from exceptionally durable and damage-resistant nylon fabric, providing additional protection against splashes.

Optimal Space Organization

The PGYTECH backpack not only ensures comfortable transportation but also offers excellent protection for your equipment. It features dedicated compartments for a mirrorless camera and 1 lens, and an additional pocket with a magnetic closure allows for the storage of small accessories such as cables and memory cards. It is also equipped with a specially designed pocket for an AirTag, giving you peace of mind knowing that your valuable equipment is protected against theft.
