PGYTECH Protective Bag Size S (Maze)

The PGYTECH Protective Bag is the perfect solution for those who value the safety and functionality of their accessories. Made from innovative polymer material, it ensures durability and reliability. Model P-CB-143, with a mosaic pattern and RoHS certification, offers versatile applications, from protecting photographic equipment to everyday gadgets. Its lightweight design (61g) and compact dimensions (350 x 350mm) make it the perfect companion for everyday use.

Durable Polymer Material

The main advantage of the PGYTECH bag is its high-quality polymer material construction. As a result, it is resistant to wear and maintains its original appearance for a long time. This material, processed using nanotechnology, also provides strong bonding strength, ensuring that the bag retains its properties even after multiple washes. The ripstop material from which the bag is made offers effective protection against scratches and impacts.

Universal Application

The PGYTECH bag easily accommodates a variety of items, from cameras and lenses to small tripods, filters, and even iPads. Its versatility makes it an ideal solution for both photography professionals and enthusiasts, as well as individuals seeking a practical accessory for everyday item storage.

Easy Maintenance

While the bag is not waterproof, it is easy to maintain and does not require special care. Hand washing is recommended at a temperature not exceeding 40°C, using a mild detergent. Natural drying ensures that the bag retains its protective properties and aesthetic appearance.
