PGYTECH Protective Bag Size S (Pop Collage)

The PGYTECH Protective Bag is the perfect solution for those who value the safety and functionality of their accessories. Made from innovative polymer material, it ensures durability and reliability. The P-CB-145 model, featuring a pop collage design and RoHS certification, offers versatile applications, from protecting photographic equipment to everyday gadgets. Its lightweight construction (61g) and compact dimensions (350 x 350mm) make it the ideal companion for everyday use.

Durable Polymer Material

The main advantage of the PGYTECH bag is its high-quality polymer material. This makes it resistant to wear and maintains its original appearance for a long time. Processed with nanotechnology, this material also provides strong bonding strength, ensuring that the bag retains its protective properties even after multiple washes.

Easy to Maintain Cleanliness

While the bag is not waterproof, it is easy to care for and does not require special treatment. Hand washing is recommended at a temperature not exceeding 40 °C, using a mild detergent. Natural drying ensures that the bag retains its protective properties and aesthetic appearance.
