

Camera Aluminum Cage PGYTECH for GoPro 12

Camera Aluminum Cage PGYTECH for GoPro 12

Ref: 6976100485013

PGYTECH aluminum case / protection frame for GoPro 12

Discover new recording possibilities! Made of aluminum alloy, the security frame by PGYTECH is designed for GoPro 12 / 11 / 10 / 9 sports cameras. It is extremely easy to install and provides convenient access to the camera ports. You will successfully mount it both vertically and horizontally.

Many possibilities

PGYTECH's frame is designed to block access to neither buttons nor camera ports, which guarantees unobstructed operation of the device. A special battery stabilization block allows you to charge the camera while it's in use, eliminating the need for interruptions. The housing also features a 1/4" threaded hole and Cold Shoe mount, which allows for easy connection of additional accessories, such as lights or microphones, without removing the frame.

Carefully considered design

The accessory is a perfect fit for the GoPro 12 / 11 / 10 / 9 sports camera, ensuring reliable protection for your equipment. Equipped with a flip-open mechanism, it allows quick installation and removal of the camera. Its well-thought-out design allows you to quickly switch between landscape and portrait modes while shooting, so you'll gain full control over your frames.
