

## SwitchBot Pan/Tilt Cam 2K

SwitchBot Pan/Tilt Cam 2K

Ref: 850037096930

### SwitchBot Pan/Tilt Cam 2K rotating wi-fi camera

The SwitchBot Pan/Tilt Cam 2K is an advanced Wi-Fi camera that delivers unparalleled control and security. The device offers a number of innovative features, providing convenient video access from your phone. Night vision, motion sensor and two-way communication are just some of its advantages. With it, you can easily protect your home and enjoy peace of mind.

### Enhanced resolution

The camera is equipped with 50% more pixels compared to previous models, which means clearer and more detailed images. Now you can observe your surroundings in 2K quality, which delivers incredible sharpness and detail from every recording.

### Full range of monitoring

The device offers a full range of monitoring, thanks to its ability to rotate 360° horizontally and 115° vertically. It allows you to observe every angle of your surroundings no matter where you are. You can be sure that nothing will escape your attention.

### Two-way communication

SwitchBot Pan/Tilt Cam 2K allows you not only to monitor your surroundings, but also to interact with them. With the two-way communication feature, you can have conversations with people within the camera's range. This is ideal for when you want to say

something to your child, give instructions to a package supplier, or simply say hello to guests.

#### Tracking and motion detection

Pan/Tilt Cam also offers advanced tracking and motion detection features. It always keeps the subject in focus, no matter where it moves. In addition, intelligent people detection and audible alerts help you respond quickly to suspicious activity within the camera's range. It's another layer of security and peace of mind for you and the rest of the residents.

#### Night vision

Regardless of the time of day or night, the camera provides excellent visibility even in low-light conditions thanks to its night vision feature. Now you can sleep soundly, safe in the knowledge that the camera captures every movement or sound in your child's room. In addition, in case of suspicious activity, night vision allows you to clearly record an intruder or unwanted incident, which can help you identify and solve the problem.

#### Intelligent voice control

The SwitchBot camera is a device that understands your commands. With support for Amazon Alexa and Google Assistant, you can control it with simple commands. It's a convenient solution that allows you to quickly check the camera's view when your hands are busy.

#### Security and privacy

The camera also offers a privacy mode function, giving you full control over turning the camera on and off at any time. With support for microSD cards of up to 256 GB, you are assured that all recordings are stored safely and will serve as evidence if needed.

#### Shared video from multiple cameras

One of the unique features of SwitchBot Pan/Tilt Cam 2K is the ability to display video from multiple cameras on a single screen in the app. You don't have to switch between different views to access video from multiple rooms simultaneously. This feature provides convenience and efficiency in monitoring and responding to events in real time, so you won't miss any important event.

#### Network connectivity

With support for 802.11b/g/n and 2.4 GHz standards, the camera provides a stable connection to your Wi-Fi network. This gives you easy access to the camera's video and allows you to control it via the app, wherever you are.
