

Memory card microSD 128GB Kingston 95/45MB/s C Endurance

Ref: 740617290141

Memory card microSD 128GB Kingston 95/45MB/s C Endurance

Memory card microSD 128GB Kingston 95/45MB/s C Endurance

The Kingston 128GB microSD memory card is a guarantee of reliability in storing your data. Whether you're a professional photographer, cameraman or just need space for your files, this card will meet your needs.

High performance, smooth recording

With a read speed of 95MB/s and a write speed of 45MB/s, the memory card guarantees perfectly smooth recording and fast data transfer. Now you can easily record long videos and store hundreds of photos. Note: the card is compatible with older devices, but in their case it does not allow you to use the full potential in data reading speed.

Durability in all conditions

The Kingston 128GB card isn't just about performance, it's also about durability. With it, you can record even in harsh conditions without worrying about the safety of your data. Rain, sand or extreme temperatures are not a problem. Cards in this size are also more resistant to drops, being an additional guarantee of its longevity.

Your data - your control

With the Kingston 128GB memory card, you no longer have to rely on the cloud. Store and manage your data directly on the card, saving

on online subscription costs.
