Tyčový vysavač kabelový INSE I5 (červená)

Ref: 6975907030228

#### INSE I5 Corded Stick Vacuum Cleaner (Red)

Keep your surfaces clean with the INSE I5. The stick vacuum utilizes 600W power and 18000 Pa suction power, effectively tackling various types of dirt. The included brushes make cleaning different surfaces easier, while the 1-liter dust tank reduces the frequency of emptying. Moreover, the 5-stage filtration system effectively separates dust from the air, and the lightweight design allows for comfortable cleaning of curtains, high shelves, and more.

#### No Dirt Escapes Its Attention

Dust, pet hair, crumbs—INSE I5 efficiently removes various types of dirt. It utilizes 600W power and 18000 Pa suction power. Additionally, it features a built-in brushless motor operating at 16000 rpm, ensuring thorough dirt removal, leaving surfaces clean.

#### Universal Brush

The INSE I5 vacuum comes with a wide brush suitable for cleaning various surfaces. It works well on short-pile carpets, wooden floors, tiles, etc. Furthermore, you can adjust the brush fiber height with a dedicated switch, preventing scratches on delicate surfaces.

#### Additional Accessories Included

Clean various surfaces effortlessly with the included accessories. The kit comprises several accessories for different cleaning needs. The

crevice tool facilitates cleaning hard-to-reach areas, such as edges or narrow gaps between furniture. Meanwhile, the 2-in-1 brush effectively and gently removes dirt from sofas, curtains, desks, ventilation grilles, etc.

#### Customized to Your Needs

The INSE I5 vacuum is designed not only for efficient performance but also for user convenience. Its lightweight construction (approx. 3 kg) allows fatigue-free cleaning of high surfaces, while the extendable tube enables length adjustment from 48 to 78 cm, catering to individual needs. Moreover, the approximately 6-meter-long cable provides unrestricted movement, and the included accessory holder facilitates brush storage.

#### Easily Maintainable

Maintaining the I5 is hassle-free. Components like filters and the dust tank can be rinsed under running water, eliminating the need to spend money on new parts. By regularly cleaning the parts, you can extend the product's lifespan and enhance its efficiency.

#### Package Contents
