

## Cordless vacuum cleaner INSE S6T

Bezšňůrový tyčový vysavač INSE S6T

Ref: 6975907030242

### INSE S6T Cordless Stick Vacuum Cleaner

The INSE S6T Cordless Stick Vacuum Cleaner is a versatile appliance that meets the high demands of modern users in terms of efficiency, ease of use, and hygiene. Thanks to advanced vacuum technology, this vacuum offers a suction power of 23000Pa, allowing for thorough cleaning on various surfaces. Equipped with a 300W brushless motor and a large 25000mAh battery, the INSE S6T ensures long-lasting performance without a loss of efficiency. Its versatility, allowing it to be used as both a floor and handheld vacuum, caters to the needs of even the most demanding users. Additionally, the five-layer filtration system and washable filters provide clean air and easy maintenance. Below are the five key features of this innovative device.

### Traditional and Handheld Vacuum

The INSE S6T Vacuum stands out with its versatility, allowing it to be used as both a traditional floor vacuum with a wand and as a handheld vacuum. This practical solution enables quick adaptation of the device to current needs, from deep cleaning floors to quickly removing debris from furniture or your car. With interchangeable attachments, the vacuum becomes incredibly versatile, making it an ideal tool for maintaining cleanliness in every corner of your home.

### Filtration System

The five-layer filtration system in the INSE S6T Vacuum effectively removes 99.99% of pollutants from the air, ensuring not only thorough

floor cleaning but also an improvement in indoor air quality. This system is crucial for allergy sufferers and those who prioritize high hygiene levels in their homes. The filters are easy to wash, significantly reducing operating costs and increasing the device's durability.

#### Suction Power and Brushless Motor

The 300W brushless motor combined with an impressive suction power of 23000Pa allows the INSE S6T Vacuum to tackle even the toughest dirt. These technical parameters guarantee high cleaning efficiency, reducing cleaning time and enhancing user comfort. The powerful motor also ensures a longer lifespan for the device, minimizing the risk of malfunctions.

#### Charging and Battery Capacity

The vacuum is equipped with a 25000mAh battery, allowing for extended cleaning without the need for frequent recharging. The device offers two charging options - directly connecting the cable to the device's battery or charging the removable battery, further enhancing user convenience. The battery level indicator informs you when it's time to recharge, eliminating the risk of unexpected interruptions during work.

#### Ergonomics and Design

Designed with user comfort in mind, the INSE S6T Vacuum features an ergonomic design, including side and vertical angles of inclination of the wand at 150° and 90° respectively, making it easier to reach difficult-to-access areas. The 25cm brush width allows for quick and efficient cleaning of larger surfaces. Moreover, its lightweight design and intuitive operation make vacuuming less tiring and even enjoyable.
