Flashlight Superfire X18

Ref: 6975515771216

Flashlight Superfire X18

The Superfire X18 flashlight features a compact design so you can carry it with you at all times. It offers 5 light modes, and its brightness reaches 55 lm. It only needs one AAA battery to power it, which can provide an operating time of up to 60 minutes. The device is also waterproof (IP44) and very durable - a durable aluminum alloy was used to make it.

Always on hand

Stock up on a flashlight that can accompany you almost anywhere. The X18 is smaller than most pens, so you can easily fit it even in your pocket. It is also equipped with a practical clip, with which you can easily attach it to a shirt or backpack, for example.

The light you need

Despite its compact size, the flashlight stands out for its impressive performance. Its power is a maximum of 5 W, and its brightness reaches 55 lm. The device also features a range of up to 38 m. There are also various light modes - strong light, weak light, medium light, SOS and strobe. So you can adjust the lighting to the situation and your needs at any time!

Operating time of up to 60 minutes

To power the flashlight, you only need one AAA battery - you can easily buy them in most stores. You also don't have to worry about the

device refusing to serve you too quickly - its working time reaches 60 minutes. Even if your field trip is prolonged, you will easily light your way and return home in peace!

Plenty of uses

This handy flashlight is perfect for a variety of uses. It will come in handy during a trip to the mountains or to a tent, it will also come in handy on a daily basis, for example, during an evening walk with your dog. You will also use it for small repairs or when there is a power failure - thanks to it you can avoid tripping over something in the dark and easily find the things you need.
