Tronsmart T7 Bluetooth Wireless Speaker (Blue)

From now on, music can accompany you everywhere. The Tronsmart T7 wireless speaker utilizes SoundPulse Audio technology, providing balanced and defined sound, while its IPX7 waterproof rating allows you to take it on any adventure. The dedicated app allows you to personalize the sound, and with practical buttons, you can handle phone calls, manage music playback, and much more! The device supports Bluetooth 5.3, ensuring a stable connection up to 18 meters away. Additionally, the LED backlighting creates a unique atmosphere. A single charge provides up to 12 hours of playback.

Sound that Fills the Space

Are you a true music enthusiast who values excellent sound quality? Tronsmart's proposal will surely meet your expectations! The T7 speaker utilizes advanced SoundPulse technology, based on a patented algorithm, ensuring balance, richness in detail, and clarity of sound. The combination of two high-frequency speakers and one low-frequency speaker effectively generates three-dimensional sound, immersing you in music from all directions. Now, every track will sound better, giving you the impression of experiencing your favorite artists live.

Always Ready for Action

Let nothing stop you. The T7 speaker stands out with its IPX7 waterproof rating, allowing you to enjoy your favorite music in any

conditions, even at the beach or in the shower. It also offers original backlighting. Immerse yourself in visual attractions with 4 impressive LED modes and discover new dimensions of sound with Tronsmart, your key to incredible musical experiences!

Take Control with the App

Connect to the speaker using the Tronsmart app and gain full control over the sound. Personalize the sound by adjusting various EQ modes, such as SoundPulse, Deep Bass, or Classical, and control LED lighting effects. With the T7, every party and music gathering will become a true show!

Possibility to Connect 2 Speakers

Do you want to completely fill the space with stereo sound? The T7 speaker allows you to fulfill your dream with the True Wireless Stereo Pairing feature. It's simple—just pair two T7 speakers, and you'll experience incredible sound quality. Overpowering bass, crystal-clear high tones, and deep low sounds will take you on a musical journey you won't forget!

Designed for Your Comfort

The T7 speaker is designed with your comfort in mind. Practical buttons allow for smooth track scrolling, answering, ending, or rejecting incoming calls, and activating voice assistants. The knob allows you to precisely adjust the sound level, and by turning it counterclockwise, you can quickly and easily lower the volume. The device supports a stable Bluetooth 5.3 connection up to 18 meters away, and thanks to the TF card slot, you can also enjoy your favorite tracks directly from the card. Additionally, the automatic power-off feature saves battery power by turning off after 10 minutes of inactivity, ensuring longer playback time.

Music Without Limits

The T7 speaker is an exceptionally durable music companion. With a 700mAh battery, you can enjoy music for 7 hours (when using LED lighting) or 12 hours (when the LED lighting is off). This is enough time to provide musical entertainment for your entire picnic, weekend getaway, or long journey. Charging the device takes about 3 hours. A colorful indicator will inform you of its status.
