Tronsmart T7 Bluetooth Wireless Speaker (Red)

Now music can accompany you always. The wireless Tronsmart T7 speaker uses SoundPulse Audio technology, providing balanced and defined sound. Its IPX7 rating allows you to take it on any adventure. The dedicated app allows you to personalize the sound, and with practical buttons, you can make phone calls, control music playback, and more! The device supports Bluetooth 5.3, ensuring a stable connection up to 18 meters away. Additionally, LED lighting creates a unique atmosphere. A single charge provides up to 12 hours of work.

Sound that Fills the Space

Are you a true music lover who values excellent sound quality? Tronsmart's proposal will surely meet your expectations! The T7 speaker uses advanced SoundPulse technology, based on a patented algorithm, to provide balance, richness of details, and sound clarity. Combining two high-frequency speakers and one low-frequency speaker effectively generates three-dimensional sound, surrounding you with music from all sides. Now every track will gain in quality, and you'll feel like you're listening to your favorite performers live.

Always Ready for Action

Let nothing hold you back. The T7 speaker stands out with its IPX7 waterproof rating, allowing you to enjoy your favorite music in any conditions - even during a beach picnic or in the shower. It also offers original lighting effects. Get carried away by visual attractions with

4 impressive LED modes and discover new dimensions of sound with Tronsmart, your key to incredible music experiences!

Take Control with the App

Connect to the speaker using the Tronsmart app and gain full control over the sound. Personalize the sound by adjusting various EQ modes, such as SoundPulse, Deep Bass, or Classical, and control LED lighting effects. With the T7, every party and music session will become a true show!

Possibility to Connect 2 Speakers

Want to completely fill the space with stereo sound? The T7 speaker allows you to fulfill your dream with the True Wireless Stereo Pairing feature. It's simple - just pair two T7 speaker units, and you'll experience amazing sound quality. Powerful bass, crystal-clear high tones, and deep low sounds will take you on a musical journey you won't forget!

Caring for Your Comfort

The T7 speaker was designed with your convenience in mind. Practical buttons allow smooth scrolling of tracks, answering, ending, or rejecting incoming calls, and activating voice assistants. The dial allows you to precisely adjust the sound level, and by rotating it counterclockwise, you can quickly and easily lower the volume. The device supports stable Bluetooth 5.3 connectivity up to 18 meters away, and thanks to the TF card slot, you can also enjoy your favorite tracks directly from the card. Additionally, the automatic power-off function after 10 minutes of inactivity saves battery power, ensuring longer playback time.

Music Without Limits

The T7 speaker is an exceptionally durable music companion. With a 700mAh battery, you can enjoy music for up to 7 hours (when using LED lighting) or 12 hours (when the LED lighting is turned off). That's enough time to provide musical entertainment for an entire picnic, weekend trip, or long journey. Charging the device takes about 3 hours. A colorful indicator will inform you about its status.
