

## Temperature, humidity and movement sensor Sensibo Room Senso

Ref: 7290016037180

Temperature, humidity and movement sensor Sensibo Room Sensor

Sensibo Room Sensor - Temperature, Humidity, and Motion Sensor

Sensibo Room Sensor is a temperature, humidity, and motion sensor that will enhance your comfort and convenience. This innovative product will transform your home into a haven of comfort, providing precise monitoring of metrics, energy efficiency, comfort, and seamless integration with your smart home system. Sensibo Room Sensor is the perfect solution for those who value convenience, savings, and control over their indoor environment. This sensor works exclusively with the Sensibo Air controller.

Intelligent Climate Monitoring

The Sensibo Room Sensor accurately monitors temperature and humidity in real-time, ensuring optimal conditions in every room for comfort and well-being. Thanks to the high-precision sensors, you can always be sure that your home environment is optimally tailored to your needs.

Seamless Compatibility

Designed to work seamlessly with the Sensibo Air ecosystem, this sensor easily integrates with existing Sensibo devices. This feature allows for quick and easy connection to your smart home system, ensuring that all devices work together harmoniously to provide the best user experience.

### Personalized Comfort

Create the perfect conditions in your home by customizing the climate to your preferences. Using data from the Sensibo sensor, you can create personalized comfort zones, ensuring ideal living and working conditions for every family member.

### Home Automation Integration

The Sensibo Room Sensor seamlessly integrates with popular voice assistants and home automation platforms such as Amazon Alexa, Google Assistant, and Apple HomeKit. This feature allows for easy climate control in your home using simple voice commands.

### Specifications:

Brand Sensibo

Model Room Sensor

Dimensions 65 x 65 x 17mm

Apps iOS, Android, HTML5

Connectivity WiFi 802.11 b/g/n @ 2.4GHz, DHCP, or static IP address, SSL encryption

Sensors High-precision temperature and humidity sensors, universal infrared receiver
