Esperanza EGG108K Wireless Controller (black)

Esperanza EGG108K wireless gamepad (black)

Discover a new dimension of gameplay with the Esperanza EGG108G wireless gamepad. Available in a stylish black color scheme, this ergonomically designed controller offers an unparalleled gaming experience on both PC and PS3 consoles. Equipped with 2.4GHz connectivity technology, the EGG108G gamepad provides smooth and reliable gaming without the limitations of cables. Its advanced features, such as vibration that responds to in-game action and 12 action buttons, make every game exciting.

Ergonomics and comfort

The ergonomic design of the Esperanza EGG108G gamepad guarantees comfort even during long hours of gaming sessions. Its shape was designed for natural hand positioning, minimizing the risk of fatigue and ensuring optimal grip. This allows the player to focus solely on the action on the screen without worrying about discomfort.

Precision and control

Two analog manipulators and an 8-way crosshair provide full control and precision in any game. Whether it's a fast-paced action game or a strategic game that requires accuracy, the EGG108G gamepad's manipulators and crossbar allow for smooth and intuitive control. Combined with 12 action buttons, including two integrated into the manipulators, the gamepad allows you to react quickly and efficiently to dynamically changing game conditions.

### Realistic experience

The vibration motors in the Esperanza EGG108G gamepad significantly increase the level of immersion during gameplay. Thanks to them, every crash, explosion or shot in the game can be felt, which makes the gameplay more exciting and realistic. This is the element that sets EGG108G apart from other controllers, providing a unique experience during each gaming session.
