Esperanza EGM401WB Wired gaming mouse (white-blue)

Esperanza EGM401WB wired gaming mouse (white and blue)

Esperanza EGM401WB is a wired gaming mouse that combines professionalism, functionality and ergonomic design. Created specifically for gamers, it not only offers precise tracking thanks to its advanced optical sensor, but also provides comfort even during long hours of gaming sessions. Its unique color adds a touch of style, while its solid construction with reinforced cable ensures durability and reliability. Additional features, such as "Next" and "Previous" buttons and a special "Double Click" key, make navigation easier and more efficient for gaming and Internet browsing.

Precise optical sensor

A key feature of the Esperanza EGM401WB is its precision optical sensor, offering switchable resolution between 800 and 2400 DPI. This feature allows gamers to perfectly adjust the mouse's sensitivity to individual preferences and game type, which is invaluable in fast-paced and demanding titles where precision of movement is crucial.

Functional additional buttons

The Esperanza EGM401WB gaming mouse is equipped with additional "Next" and "Previous" side buttons, which significantly facilitate navigation in games and other applications. The "Double Click" function allows quick double-clicking without having to manually click twice, which is useful in many gaming scenarios and more.

### Ergonomic design

Esperanza EGM401WB is distinguished by its ergonomic shape, which guarantees comfort of use even during long gaming sessions. The proper contouring of the mouse makes it fit perfectly in the hand, preventing fatigue and increasing overall comfort. This allows gamers to focus on the game without worrying about discomfort.
