

Esperanza EK139 Wired keyboard

Wired keyboard Esperanza EK139

Ref: 5901299946282

Esperanza EK139 wired keyboard

Esperanza EK139 - this wired USB keyboard, made of high-quality materials, is not only nice to the touch, but also extremely durable. Its ergonomic shape and flexibility of the keys provide comfort during long hours of work, and its stylish appearance will make it a decoration of any desk. In addition, the keyboard is designed to work in a variety of environmental conditions, ensuring reliability and versatility.

Ergonomics and comfort of use

Esperanza EK139 keyboard is designed with your comfort in mind. Its ergonomic shape prevents hand fatigue, even during long hours of work. The flexibility of the keys ensures that each press is smooth and precise. It is ideal for people who spend a lot of time typing.

Durability and resistance

The keys of the Esperanza EK139 keyboard have been printed using modern UV technology and coated with a special protective layer, which makes them extremely resistant to abrasion. This feature ensures that the letters will remain legible for a long time, which is especially important for intensive use.

High compatibility and easy connection

EK139 keyboard works with a variety of operating systems, from Windows XP to Windows 10, making it a universal solution for different users. Easy connection via USB 2.0 enables quick and hassle-free setup with notebooks and desktops.

The power of advantages

Esperanza EK139 keyboard is resistant to electrification and protected against the generation of electromagnetic interference, which ensures stable and safe operation. Its dimensions (442 x 140 x 22mm) and cable length (1.45m) guarantee convenient use both at home and in the office. It supports all language versions, making it an ideal tool for international work environments.
