Esperanza TKR101 Titanium USB keyboard (russian layout)   Ref: 5905784768250

Esperanza TKR101 Titanium USB keyboard (russian layout)

Esperanza Titanium TKR101 USB Keyboard (Russian layout)
The Esperanza Titanium TKR101 keyboard is a wired model with a Ukrainian layout of keys, which combines the basic functions needed for everyday work. Its ergonomic shape and flexible keys make it comfortable to use, even during prolonged typing. Its sleek black design makes it fit in well on any desk.

Cyrillic on the keys
The Esperanza Titanium TKR101 keyboard is distinguished by the presence of letters derived from the Cyrillic alphabet on the keys, which is especially useful for users who write in Ukrainian. This feature makes the keyboard ideal for speakers of Cyrillic-derived languages, making typing easier and providing greater precision and convenience. This is especially important in multilingual environments and for people who regularly communicate in Slavic languages, offering them the functionality and comfort they need.

Durability
The manufacture of high-quality materials and the use of modern UV technology for printing letters and symbols, with an additional protective layer, increases the resistance of the keys to abrasion. This is important for those who frequently use the keyboard, ensuring a longer life.
