

## Esperanza TM102G Titanium Wired mouse (green)

Esperanza TM102G Titanium Wired mouse (green)

Ref: 5901299901649

### Esperanza TM102G Titanium wired mouse (green)

Distinguished by its ergonomic shape and special rubber coating, the Esperanza TM102G Titanium wired mouse in green offers exceptional comfort for use both at home and in the office. Perfectly lying in the hand and providing quiet scroll wheel operation, this 3D optical mouse is compatible with various operating systems and is suitable for use with desktop computers and notebooks. Easy to install thanks to its Plug & Play function, the TM102G is an excellent choice for those looking for reliability and convenience.

### Ergonomic shape

The ergonomic shape of the Esperanza TM102G mouse ensures comfort even during long hours of work. It is designed to perfectly fit the shape of your hand, minimizing fatigue and discomfort. Whether you're a right- or left-handed user, this mouse offers the comfort and support that are crucial when working with a computer.

### Special rubber coating

The Esperanza TM102G mouse stands out not only for its functionality, but also for its pleasant-to-the-touch finish. A special rubber coating on the elements in contact with the hand provides a soft, comfortable grip. This is especially important for users who spend long hours at the computer, as it prevents hand slippage and increases overall comfort.

### Quiet scroll wheel

The silent scroll wheel is another advantage of the Esperanza TM102G mouse, making it ideal for office environments where keeping it quiet is often a priority. It makes working with documents and browsing the web smooth and almost silent, which is a significant advantage, especially in quiet workspaces.

### Additional information

The TM102G mouse does not require special software - the Plug & Play function allows easy installation without additional drivers. With compatibility with Windows, Unix, Mac OS and Linux, it is a universal solution. The mouse has three buttons and an optical sensor with a resolution of 1000 DPI, which is sufficient for most office applications. Its compact size and light weight (70 g) further facilitate transportation and use in various conditions. The lack of LED backlighting is a conscious choice, emphasizing its subdued, professional character.
