Inteligentny dotykowy przełącznik ścienny Wi-Fi Sonoff TX T5 2C (2-kanałowy)

Smart Wi-Fi Touch Wall Switch Sonoff TX T5 2C (2-channel)

Create a smart home with Sonoff. The TX T5 2C is a two-channel wall switch that allows convenient control of lighting. You can also control it remotely using voice commands or the eWeLink app. Furthermore, the product offers a timer function and colorful LED backlighting that you can customize to your needs. You can also personalize the switch's appearance using colorful panels (not included).

Voice Control

Want to turn off the lights in the living room without getting up from the couch? With Sonoff TX T5 2C, it's not a problem. The wall switch works with assistants such as Amazon Alexa, Google Home, and Alice. Just a simple voice command – you don't have to interrupt your favorite show anymore.

Bidirectional Lighting Control

The switch can be used as an eWeLink gateway. This allows you to create smart scenes that allow both TX T5 2C and R5 or S-MATE (not included) to control the operation of a single lamp. Take advantage of the opportunities offered by Sonoff without unnecessary wiring.

Additional Features

The switch has a built-in timer that allows you to adjust the time at which the light will automatically turn off, and colorful backlighting

around the switch will be activated. This makes it easy to locate the device after dark. Furthermore, there is the possibility of activating smart scenes, and the built-in speaker allows the switch to function as a doorbell – for this purpose, Sonoff SNZB-01 is required.

Touch Panel and Colorful Backlighting
Sonoff TX T5 2C is equipped with two buttons, so you can conveniently turn on the light, for example. The device will signal the command with a sound signal and gentle vibrations. Additionally, it offers 8 types of colorful backlighting, including Party, Night Light, and Color modes. Choose the one that suits you best.
