

Portable 4-in-1 Air Pump Flextail Max Pump2 PRO (black)

Ref: 6971670130707

Portable 4-in-1 Air Pump Flextail Max Pump2 PRO (black)

Portable 4-in-1 Flextail Max Pump2 PRO (Black)

Discover the Flextail Max Pump2 PRO, a portable 4-in-1 pump that is not only an indispensable companion for travel but also an invaluable multifunctional device for everyday use. This small yet powerful gadget, weighing only 159g, combines the utility of a pump, a flashlight, and a power bank. Because of its lightweight and compact design, the Max Pump2 PRO is suitable for camping trips as well as for use at home. Its universal design and high-quality craftsmanship will satisfy even the most demanding users.

Multifunctionality: Invaluable Camping Aid

The Max Pump2 PRO is not only a pump but also a power bank and a flashlight. With a built-in flashlight with brightness ranging from 50 to 500 lumens and a runtime of 76 to 12 hours, it can serve as a practical source of light in a tent or during a camping trip. Its power bank function allows you to charge various devices such as phones, headphones, or watches, making it an essential tool for every journey.

Two Air Pressure Levels

The device features two air pressure levels, allowing for quick and efficient inflation of various items. The pump is ideal for inflating sleeping mats, swim rings, inflatable mattresses, and vacuum bags. This allows the user to easily adjust the inflation force to their needs. However, it is not suitable for inflating basketballs, soccer balls, balloons, or inner tubes.

Ergonomic Design and Low Weight: User Comfort

With a weight of approximately 159g, the Max Pump2 PRO is exceptionally portable and easy to transport. Its ergonomic design ensures comfortable use regardless of the location and situation.

Practical Accessories: Set of Nozzles for Various Uses

The included set of five different nozzles provides versatility in the pump's applications. This device will come in handy in various situations, from inflating mattresses and swim rings to vacuum bags.

Long Runtime and Flashlight Functionality: Invaluable Aid in the Dark

The long runtime of the flashlight (from 76 to 12 hours) ensures its reliability in challenging conditions. This allows users to safely navigate in the dark, read maps, or cook at night during a camping trip.
