

## Portable 4-in-1 Air Pump Flextail Max Pump2 PRO (white)

Ref: 6971670130691

Portable 4-in-1 Air Pump Flextail Max Pump2 PRO (white)

### Portable 4-in-1 Flextail Max Pump 2 PRO (White)

Discover the Flextail Max Pump 2 PRO, a portable 4-in-1 pump that is not only an indispensable travel companion but also an invaluable multifunctional device for everyday use. This compact yet powerful gadget, weighing only 159g, combines the utility of a pump, a flashlight, and a power bank. Thanks to its lightweight and compact design, the Max Pump 2 PRO is suitable for camping trips as well as home use. Its universal design and high-quality craftsmanship will satisfy even the most demanding users.

### Versatility: Invaluable Camping Companion

The Max Pump 2 PRO is not just a pump but also a power bank and a flashlight. With a built-in flashlight with brightness ranging from 50 to 500 lumens and a runtime of 12 to 72 hours, it can serve as a practical light source in a tent or while camping. Its power bank function allows you to charge various devices such as phones, headphones, or watches, making it an essential tool for any journey.

### Two Air Pressure Levels

The device has two levels of air pressure, allowing for quick and efficient inflation of various items. The pump is ideal for inflating sleeping mats, swimming rings, inflatable mattresses, and vacuum bags. This allows the user to easily adjust the inflation force to their needs. However, it is not suitable for inflating basketballs, soccer balls, balloons, or inner tubes.

#### Ergonomic Design and Low Weight: User Comfort

With a weight of approximately 159g, the Max Pump 2 PRO is exceptionally handy and easy to transport. Its ergonomic design allows for comfortable use, regardless of location and situation.

#### Practical Accessories: Set of Nozzles for Various Applications

The included set of five different nozzles ensures the pump's versatility. This device will prove useful in various situations, from inflating mattresses to swimming rings and vacuum bags.

#### Long Runtime and Flashlight Functionality: Invaluable Help in the Dark

The long runtime of the flashlight (from 12 to 72 hours) ensures its reliability in challenging conditions. This allows users to move safely in the dark, read maps, or cook at night during camping trips.
