### Portable 2-in-1 Flextail Tiny Pump (White)

Flextail Tiny Pump 2-in-1 is a unique solution for those who value mobility and versatility. Its wireless design, compact dimensions, and light weight make it an ideal choice for travelers, camping enthusiasts, and anyone who values comfort in any conditions. Flextail Tiny Pump is more than just a pump - it's a tool that makes life easier in many situations.

### Lightweight and Comfort

Flextail Tiny Pump weighs only about 45 grams, making it one of the lightest pumps on the market. This small weight, combined with compact dimensions (about 6 x 4 cm), ensures unparalleled transport comfort. You can easily attach it to your backpack without worrying about additional burden.

### Versatility of Nozzles

A set of five different nozzles included with Flextail Tiny Pump makes this device exceptionally versatile. It allows for easy inflation of sleeping mats, swimming rings, inflatable mattresses, and vacuum bags. Its versatility makes it an ideal companion both on vacation and at home.

### Intelligent Charging Indicator

The practical light indicator is another advantage of Flextail Tiny Pump. It informs about the device's charging status: red light indicates incomplete charging level (0-99%), and green light indicates full charge (100%). This way, the user always knows when the pump is ready to use.

#### Inflation and Deflation Functionality

Flextail Tiny Pump is not limited to inflation only. Its ability to deflate air is equally effective, making it much easier to empty air from items such as mattresses or vacuum bags. This bidirectionality makes it extremely useful in various situations.

#### Portable and Easy to Use

The wireless design of Flextail Tiny Pump and its light weight make it extremely convenient to use. The absence of the need to connect to a power source and ease of carrying (thanks to the practical handle) make it an ideal tool for travel. Simply charge it via the Type C interface, and it will be ready to use in any conditions.
