

Headlight Warsun W05, 180lm, 3xAAA

Headlight Warsun W05, 180lm, 3xAAA

Ref: 6976337900617

Warsun W05 headlamp flashlight, 180lm, 3x AAA

Warsun W05 is a reliable headlamp flashlight. It is resistant to drops from up to 2 meters and splashes with IPX4 rating. It will be great for hiking and everyday use. It is equipped with COB LEDs, which emit light with a brightness of 180 lm. It offers several light modes, is lightweight and handy, and requires 3 AAA batteries to power it.

COB LEDs

The W05 uses an innovative light source, which are COB LEDs. Thanks to them, the flashlight provides a more uniform light without visible LEDs, while consuming less energy. As a result, you can enjoy even greater efficiency and longer flashlight life.

Easy power supply

The device is powered by three AAA batteries. This is a hassle-free solution. You can get them at almost any store and easily replace them when needed. The W05 is distinguished by its efficient operation, so you don't have to bother changing batteries too often.

Light modes

The flashlight offers 3 light modes, suitable for any occasion. You will use the main light mode in normal conditions. If you need a larger beam of light, the full brightness mode will come in handy. The W05 is also equipped with an SOS mode, which will come in handy in

emergency situations and more.

Resistant and durable

This model is made of durable materials such as ABS and PC, so it won't let you down even in harsh conditions. It is resistant to falls from a height of 2 meters, as well as to splashes of IPX4 grade, so it will serve you without any obstacles, for example, when exploring caves.
