Headlight Warsun YHT3B, 200lm, 1200mAh, USB-C

Ref: 6976337900716

Headlight Warsun YHT3B, 200lm, 1200mAh, USB-C

Warsun YHT3B is a practical headlamp suitable for various conditions. It is water and drop-resistant, making it perfect for outdoor use. It operates for up to 30 hours on a single charge and provides bright light at a maximum of 400lm. You can also switch between red and white light. Additionally, the built-in motion sensor allows you to turn on the headlamp with a hand gesture.

Efficient Light Source

The headlamp is equipped with 2 T6 and COB LEDs, providing brightness levels of 400 and 150lm, respectively. You can also adjust the light color and brightness to suit your needs. Furthermore, it offers adjustable light angle up to 90°.

Up to 30 Hours of Operation

Powered by a 1200mAh lithium-polymer battery, the Warsun YHT3B headlamp can shine for 5 to 30 hours on a single charge, depending on the operating mode. This ensures that the headlamp won't let you down during long outdoor adventures or renovation work. The headlamp also features a battery level indicator, so you can recharge it in time. Charging the YHT3B takes approximately 3 hours.

Resistant to Harsh Conditions

Warsun YHT3B won't disappoint you in almost any situation. It can withstand drops of up to 1 meter, allowing you to confidently use it in

challenging terrain. Moreover, its IP56 waterproof rating means that rain and moisture won't be a problem for this device.
